At a glance: Automotive Masterminds 2026

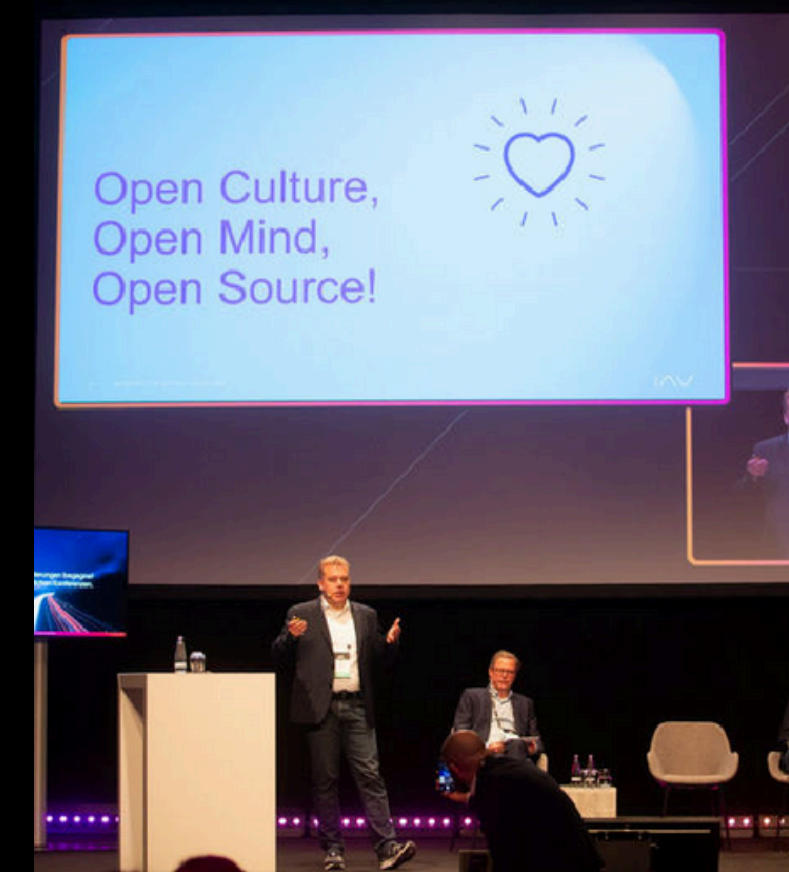

May 4-5, 2026 | ECC Berlin + Online

Hardly any other industry is currently undergoing such massive change as the automotive industry. Well-loved and proven traditions are put to the test. Megatrends such as battery, digitalization and new strategic partnerships have already changed companies. We need to develop innovative technologies for the mobility of tomorrow together.

The Automotive Masterminds is a new premium conference with an exhibition set up in a relaxed and innovative atmosphere. We give experts and thought leaders the stage to share their expertise with you in keynotes, perspectives, world cafés, master classes, expert desks, deep dives and panel discussions - hands-on. Innovative start-ups are on board as idea generators. Our excellent virtual platform is award-winning.

Conference | Exhibition | B2B Meetings | Networking

- ✓ Hybrid event
- ✓ 350+ participants on-site
- ✓ 800+ virtual attendees
- ✓ 40+ speakers
- ✓ 30+ exhibitors
- ✓ 30+ partners and sponsors

Large Exhibit in the conference hall	Your exhibit in the conference hall (e.g. car). Visible to all participants and on many event photos.	on request

Networking: On-Site and Online

Networking and meetings are a core element of any successful business event. We make this as easy as possible for you. Make new business contacts and get to know your business partners more personally.

✓ **Networking Kick-Off**

You can easily get to know people at our networking kick-off on the first conference day.

✓ **Evening Reception**

What better way to network than at a get-together directly in the exhibition area with flying dinner and drinks?

✓ **Connect with Leads via QR Code**

Connect with someone spontaneously by scanning their QR code in the app or on their name badge for a follow-up meeting.

✓ **Speed Networking**

Join our on-site Speed Networking Sessions and meet new contacts every 2 minutes.

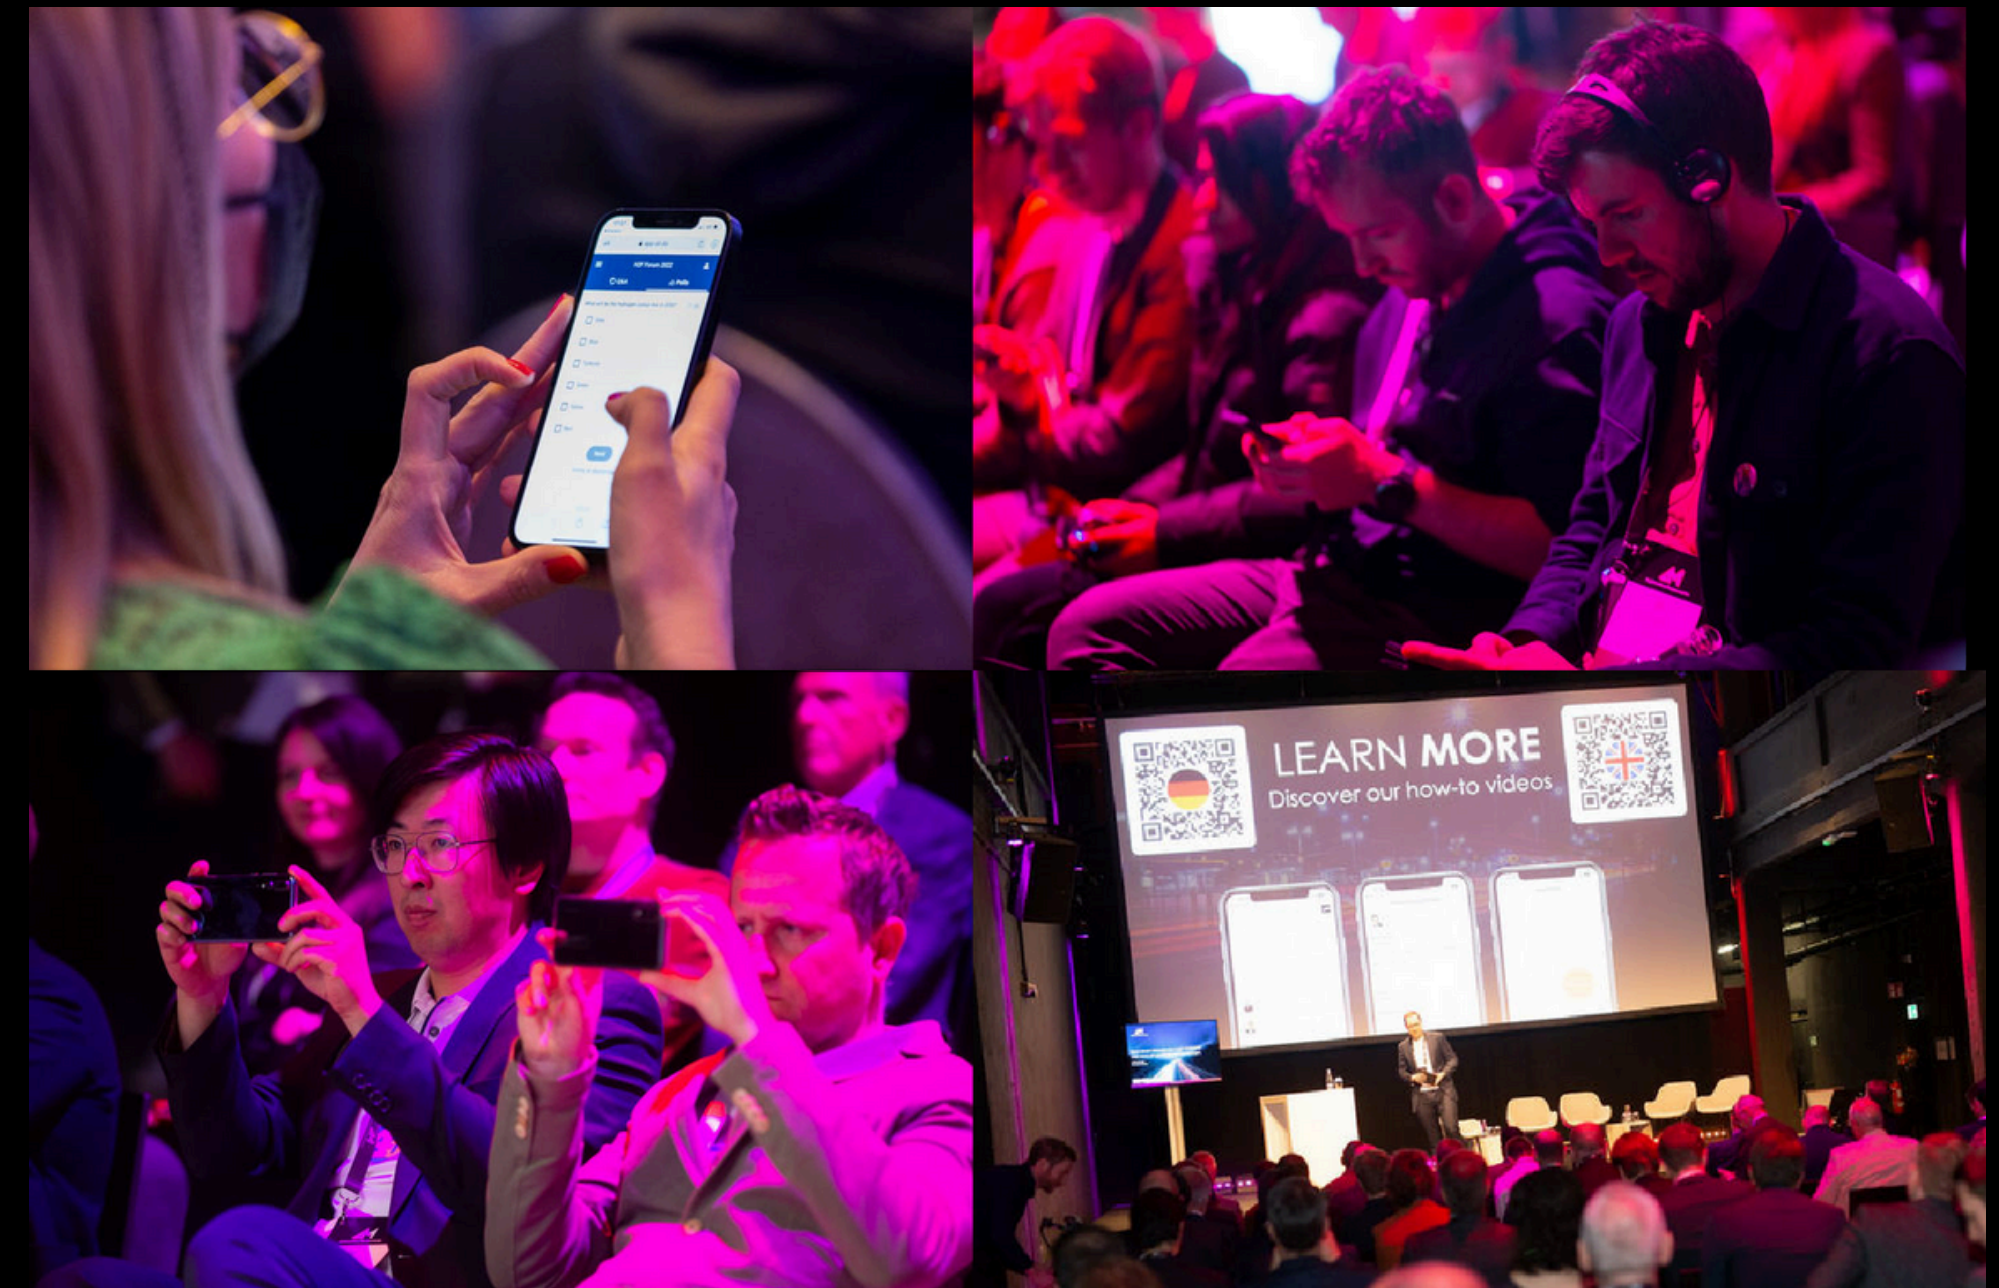

Virtual Conference Platform

In addition to the on-site event, we will set up a virtual conference platform. All participants (physical and virtual) as well as the speakers, exhibitors, and sponsors will get access to the platform. Attendees will be flagged as hybrid or virtual in the platform. The virtual conference platform opens for networking 7 days before the event.

The platform offers you the following features:

- ✓ Livestream of the conference program (main track) with live questions and polls
- ✓ Virtual exhibition and search for products
- ✓ AI based matchmaking
- ✓ B2B meeting requests (on-site or online)
- ✓ Start video calls directly from the platform
- ✓ Chats with other participants
- ✓ Speed networking sessions

Unlimited virtual tickets for exhibitors and sponsors

Virtual Exhibitor Package

Every virtual package includes the following features:

Virtual Exhibition Stand

All exhibitor packages include a virtual exhibition stand which presents your team, your products, a video, PDF documents, and a link to your website.

Live Inbound Leads

Contacts who are interested in your company are displayed on your team page. These 'Live Inbound Leads' include visitors to your virtual exhibition stand, people interested in your products or team, and if you have a speaking slot, visitors to your 'sponsored session'.

Your Products

Showing products is a particularly good way of presenting your company. You can create product presentations yourself and show them in a video.

Lead Export

Once you connected with a lead, you can export the data during or after the conference. Depending on the setting the participants chose, you will receive their name, company name, phone number, and email address. That gives you excellent chances to connect.

Your Team

You can add virtual or physical team members to your company profile. Availability for video calls or on-site meetings can be set individually. The number of virtual attendees is unlimited.

Matchmaking | B2B Meetings

The AI-supported software analyses all participants and constantly recommends interesting leads. Additionally, you can screen the participant list, using the filters in the platform, and schedule B2B meetings on-site at your booth or virtually.

About IPM

We keep you connected IPM AG has been initiating and organizing premium conferences in cooperation with the procurement boards of Airbus, Deutsche Bahn, and Volkswagen among others, for 18 years. The premium value of our 9 business conferences is reflected in the program and high-quality contributions from first-class speakers, innovative formats with strong participant engagement, as well as a high density of top managers. Thanks to our superior virtual conference platform, physical and virtual participation is seamless. Participants can meet face-to-face as well as virtually. Our mission:

Through innovative conferences, we provide our clients with access to ideas, dialogue partners, and products that broaden their horizons and thus improve their business operations.
