

AFTER SHOW REPORT 2025

H2 Forum Berlin

THE EVENT FOR HYDROGEN PIONEERS

March 04-05, 2025

ECC Berlin, GERMANY

Turning vision into action: pioneers, projects, real impact

On behalf of the H2 Forum Berlin team, we want to sincerely thank all the speakers, sponsors, attendees, exhibitors and media who joined us for a hugely successful 5th H2 Forum Berlin.

On **March 04 and 05, 2025**, the event for hydrogen pioneers once again became the perfect place for personal exchange between industry pioneers, project realisers, decision makers and policy makers, investors and financiers as well as innovators and start-ups.

Staged under the motto “Turning vision into action: pioneers, projects, real impact”, the **hybrid management conference** brought together the entire value system of hydrogen technologies. **400 decision makers** from around the globe spent two days at ECC Berlin to network and discuss future trends.

STAGE HIGHLIGHTS

SPEAKER HIGHLIGHTS

TIMO BOLLERHEY
CEO H2Global
Holding and Hintco,
Co-Founder H2Global
Foundation

DR. AXEL BREE
Deputy Director-
General Hydrogen
Ramp-up and
Energy Research,
BMWK

**ALFRED
HOFFMANN**
Head of Energy
Strategy,
Salzgitter AG

**WILLEMEN
TERPSTRA**
CEO,
Gasunie

GILLES LE VAN
Chairman of the
Supervisory Board,
AIR LIQUIDE
Deutschland GmbH

**DR. CHRISTOPH
NOERES**
Executive Director
gH2, thyssenkrupp
nucera AG & Co. KGaA

FRANZISKA WEISS
Vice President Market
& Business
Development Europe,
Siemens Energy

JASMIN KABONI-VOIT
Director Hydrogen
Regulatory & Subsidy
Management,
RWE Generation SE

MARTIN GREDA
CTO,
Fest GmbH

**FRIEDERIKE
LASSEN**
Managing Director,
DWV e.V.

**JORGO
CHATZIMARKAKIS**
CEO,
Hydrogen Europe

JENS MÜLLER-BELAU
Managing Director
Energy Transition
Germany,
Shell Germany

ÖZLEM TOSUN
Green Hydrogen
Manager,
Iberdrola Germany

ELENA SCALTRITTI
Chief Commercial
Officer,
Topsoe AS

DR. JENS SCHMIDT
CEO,
Tree Energy
Solutions

**DR. CHRISTINE
FALKEN-GROBER**
Head of Division
Hydrogen,
BMWK

FOCUS TOPICS & FORMATS

The conference was organized along **3 strategic topics**. The participants learned and discussed the hydrogen solutions of the future in **keynotes, panel discussions, master classes, interactive workshops, deep dives and tech talks**.

PROJECTS & USE CASES

Insights into real-world projects and practical use cases from the top leading hydrogen players driving the hydrogen industry forward. We showcased successful implementations and experiences across the entire value chain that will drive the future of the hydrogen economy.

STRATEGIES & POLITICS

Dive deeper into discussions on policy frameworks and regulations, market strategies, business models, and emerging trends shaping the whole landscape of hydrogen adoption and existing challenges. Delve into strategic approaches and investment trends influencing the hydrogen market.

TECHNOLOGIES & INNOVATIONS

Immerse yourself in the world of innovations in the hydrogen era. Hear firsthand from leading researchers, developers, technology experts and newcomers about pioneering technical breakthroughs.

KEY TAKE AWAYS FROM OUR PARTICIPANTS

Hydrogen is already reality

Hydrogen is no longer just a vision of the future - it is a key player in today's energy transition. With advancements in production, storage, and distribution, hydrogen is already driving industries and enabling carbon-neutral solutions.

Collaboration is key

Cooperation between industry and politics is crucial in order to exploit the full potential of hydrogen. Joint investment, a clear regulatory framework and technological innovation can create a sustainable hydrogen economy.

Economy & regulation slow down speed

While hydrogen technology is advancing rapidly, economic challenges and regulatory frameworks often hinder its large-scale adoption. High production costs, infrastructure investment, and inconsistent policies slow down deployment. Therefore, action is required now!

Our participants are optimistic about the future!

What is your perspective on the viability of existing and upcoming hydrogen projects?

What our customers say

"The event provided a valuable platform to discuss the current potential, challenges and next steps on the road to the hydrogen economy."

— **VNG Handel & Vertrieb**

"The event is the perfect platform for deeper conversations and some more quiet exchanges compared to the large international expos. I very much enjoyed the very healthy size of the forum, while it feels small at first sight, you however meet nearly everyone from the industry. And after two decades in hydrogen, I can say this: The community is bigger, but still just as amazing."

— **Hydrogen Now**

"It was not only an excellent opportunity to explore the latest developments in the hydrogen world but also a wonderful experience to engage in discussions with partners and customers. I look forward to incorporating the insights gained into our projects and working together towards a sustainable future!"

— **ABB**

"The H2 Forum provided interesting insights into the development of the hydrogen industry. Representatives from the entire value chain were present, from component suppliers to system providers. Overall, there was a pleasant atmosphere in a beautiful location."

— **FEST Group**
