

7th H2 Forum Berlin 2027

March 10-11, 2027

ECC Berlin, GERMANY

Turning vision into action: pioneers, projects, real impact

On **March 10 and 11, 2027**, the event for hydrogen pioneers will be the perfect place for personal exchange between industry pioneers, project realisers, decision makers and policy makers, investors and financiers as well as innovators and start-ups for the 7th time.

Staged under the motto “Turning vision into action: pioneers, projects, real impact”, the **hybrid management conference** will bring together the entire value system of hydrogen technologies. **450 decision makers** from around the globe will spend two days at ECC Berlin to network and discuss future trends.

AT A GLANCE: KEY FACTS

**SPEAKERS
LIVE ON STAGE**

**SPONSORS, PARTNERS
& EXHIBITORS**

**PARTICIPANTS
IN BERLIN**

**VIRTUAL ATTENDEES
FROM ALL OVER THE
WORLD**

FOCUS TOPICS & FORMATS

The conference covers 3 strategic pillars. Over 60 speakers and experts will share their insights, discuss common challenges and future visions in **keynotes, panel discussions, interviews** and **tech talks**. In addition, participants can take part in **interactive deep dive sessions** and **workshops**.

PROJECTS & USE CASES

Insights into real-world projects and practical use cases from the top leading hydrogen players driving the hydrogen industry forward. We showcased successful implementations and experiences across the entire value chain that will drive the future of the hydrogen economy.

STRATEGIES & POLITICS

Dive deeper into discussions on policy frameworks and regulations, market strategies, business models, and emerging trends shaping the whole landscape of hydrogen adoption and existing challenges. Delve into strategic approaches and investment trends influencing the hydrogen market.

TECHNOLOGIES & INNOVATIONS

Immerse yourself in the world of innovations in the hydrogen era. Hear firsthand from leading researchers, developers, technology experts and newcomers about pioneering technical breakthroughs.

Cooperation & Media Partners

What our customers say

"It was a pleasure to participate in the H2 Forum in Berlin. Key decision-makers from the H2 industry came together to discuss their perspectives and the challenges they face, including possible solutions, which greatly enriched the joint exchange."

— Dr. Heike Denecke, Arnold, Chairman of the Board of Directors, Salzgitter Flachstahl GmbH

"This year's H2 Forum was yet another proof of a vibrant sector that refocus on top of global sustainability. Happy to see high-level representation from all over Europe but especially from Europe's ski market Germany. The fact that the whole value chain is represented makes this meeting so valuable. In comparison with last year the mood has improved massively. These kinds of gatherings are a superb networking opportunity taking stock of the steps ahead."

— Jorgo Chatzimarkakis, CEO, Hydrogen Europe

"The 'H2 Forum Berlin' was once again an outstanding event – one that, in my opinion, is the benchmark in terms of organization. On the one hand, there was an excellent selection of very interesting and carefully chosen presentations and panel discussions that focused on the most pressing issues facing our industry. On the other hand, it was a good mix of information and sufficient time and opportunity to network with other players in the industry. Looking forward to next year's H2 Forum."

— Mark Freymueller, CEO, Hyundai Energy & Hydrogen Europe
